

What to do in an emergency.

IF YOU OR SOMEONE ELSE ARE IN IMMEDIATE DANGER PHONE 111

Listen to your radio and check the Nelson Tasman Civil Defence website regularly for the latest information.

- Visit the Nelson Tasman Civil Defence website

General cautions

- Heavy rain may cause streams and rivers to rise rapidly, and surface flooding and slips are also possible.
- Driving conditions may be hazardous.
- Swimming in the sea and rivers may also pose health hazards.
- Please stay up to date with forecasts at the MetService website.

PLEASE RING PETER BURTON OR REBECCA HAMID +6421 393 970 IF YOU NEED IMMEDIATE HELP OR ASSISTANCE.

In the case of an emergency evacuation and/or civil emergency

There is a Survival Kit in this Dresser Below

The attached map shows the assembly point

The Hazard App is a free mobile app for Android or iOS, to help you identify hazards, reduce risks and stay informed when you need it most.

Be prepared with the Hazard App

Guests are requested to download this -free - to their phones.

A disaster can strike anytime, anywhere and affect anyone in New Zealand. Being prepared could help save your life and the lives of your family and whānau.

The Hazard app:

Uses trustworthy information from the National Emergency Management Agency and your local CDEM groups.

Is preloaded with information about hazards including floods, earthquakes, tsunamis, fire, weather and biosecurity risks. This means you have instant access to all information, even without cell phone reception or an internet connection.

Sends you alerts about earthquakes, tsunami, floods and other hazards in your area of New Zealand.

Sends alerts if you have WiFi, even if you don't have mobile phone coverage. Allows you to monitor more than one location at once.

Download the Hazard app

For Android users

Download the Hazard app from the Google Play store. The app works on Android OS version 11 and above.

iOS / Apple devices

Download the Hazard app from the App store for iOS devices

The app works on iPhone, iPad and iPod touch iOS14 and up

Tsunami

Tsunami evacuation zones are not yet defined for some areas of the Nelson-Tasman region. You should leave immediately if you feel a **LONG** or **STRONG** earthquake or when instructed to by Civil Defence or emergency services.

Long or Strong, Get Gone

For a local source tsunami, which could arrive in minutes, there won't be time for an official warning. It is important to recognise the natural warning signs and act quickly.

If you feel a strong earthquake that makes it hard to stand or a long earthquake that lasts more than a minute:

Get ready for tsunami

Find local tsunami information at :
<https://www.nelsontasmancivildefence.co.nz/tsunami-evacuation-maps/tsunami-information/>

More information about how to get ready for tsunami is available at:
<https://getready.govt.nz/emergency/tsunami/>
